

Parent/Carer Letter

Dear parent/carer,

During the school closure period, We're pleased to inform you about a new service we're using to support your child's maths education. The creators of Times Tables Rock Stars have produced a platform for boosting addition and subtraction skills, called NumBots.

Big Difference

NumBots is an online game and playing little and often will significantly improve your child's recall and understanding of number bonds and addition and subtraction facts. These are critical foundations in maths so we are excited by the impact NumBots will have.

Logging In

The children have been shown how to login to Times Tables Rock Stars and have brought home a username letter and label previously. However, if you no longer have this label, please contact the school and we will provide this again for you. Children can play at home on the website (play.numbots.com) or the NumBots app, available for Amazon, Android and Apple devices using their Times Tables Rock Stars login and password. Children might need some help navigating to the website and entering the details but once they're in, they just need some quiet space to get on with the games for 5 minutes.

Maths Circle (the creators of NumBots) cannot provide username and password information to parents, even when the school is closed.

Important: please don't allow siblings, friends or family to answer for them but do support your child if they're stuck.

Little and often

In order to get the best out of NumBots children should regularly play for short bursts so we would ask you to give them 5 minutes per day.

Game Types

1. Story Mode – the emphasis is on learning the ideas and concepts behind addition and subtraction so it features more diagrams, shapes and question styles.
2. Challenge Mode – the emphasis is more on speed of recall of key facts, like number bonds to 10, doubling small numbers or adding & taking away in your head.

Please let your child's teacher know if you have any questions or comments.
Yours faithfully,

Year 3 and 4 Teams, Lipson Vale Primary School.
